Upholstered Furniture Specification Sheet- Executive Chair

Selection Criteria/Justification – Upholstered Furniture

1. Planned Criteria

a. User Needs (state their specific needs here):

The user will need a comfortable chair to sit in where they will not be uncomfortable and allow for hours in the chair if needed.

b. Design Intent (state justification):

This product was chosen because it is a comfortable chair that supports the function of it. It is ergonomic so it can adjust to any body type and posture that the person in the chair will be in.

2. Design

From Steelcase: “Gesture™ is the first office chair designed to support a greater range of technologies, postures and user sizes. Inspired by the human body, designed for the way we work today.” See Attached Documents

https://www.steelcase.com/content/uploads/2019/05/gesture_brochure-1.pdf

3. Function/Performance/

From Steelcase: “To better understand the body at work, Steelcase conducted a global posture study spanning six continents and more than 2,000 participants. We discovered that changes in technology and behavior have led to new, unhealthy postures that are not adequately supported by current seating solutions. While technology boosts productivity, it can cause discomfort that disrupts our work, our ability to concentrate and our creativity”

4. Sustainability

We create products that are good for people, and good for the world. Our products and operations are designed around a commitment to reduce climate change, reinforced by sustainable practices across our value chain. Our Sustainable Design framework ensures our products are designed with consideration of life cycle thinking and cradle-to-cradle principles:

- Source materials responsibly
- Minimize global warming and other life cycle impacts
- Ensure material health
- Enable end-of-use strategies

- SCS Indoor Advantage™ and Indoor Advantage™ Gold certified for indoor air quality in North America
- level® 3 certified to ANSI/BIFMA e3 Furniture Sustainability Standard
- 92% recyclable
- 30% recycled content

5. Service (Warranties):
