Selection Criteria/Justification –Furniture

1. Planned Criteria

a. User Needs (state their specific needs here):

The office needs a desk that has enough storage and will be functional for the client.

b. Design Intent (state justification):

This was chosen because of the different storage components that it has for the user. It will the client to have enough space to move around and work from different areas of the desk.

2. Design

Slate Private Office combines technology integration with collaborative and organization solutions creating elegant and innovative workspaces
